

2011 Release 3 News

New models

Abarth has been included as a new brand with model specific diagnosis in the CARS database.

Updated models

More than 200 models are updated with diagnostic functions in the CARS database. A focus has been made on Italian cars. Audi, VW and Volvo are updated to year model 2012. Totally 22 brands are updated in the CARS database.

VIN number decoder

With the ability to enter the VIN number of the vehicle it is now possible to select the correct model, year model and in most cases also engine code in just a few seconds. You will access this function from the VIN dropdown in the Archive menu.

ISS Intelligent System Scan

ISS is updated for: Abarth, Alfa Romeo, Audi, Fiat, Lancia, Opel, Renault, Smart, Suzuki, and Volvo.

Vehicle information

The Placement window with photos showing the location of the diagnostic socket in the vehicles has been updated with more models.

GUIDE

Brand		Engine	Brake	Instrument	AC	Gearbox	Immobiliser	Restraints	Multifunction	Service
Model	2004-2007	●	●	●	●			●	●	●
Adjustments	2004-2006	●	●							
Programmings and tests	2006-2007								●	

Brand and Models are listed as in the CARS and TRUCKS software.

Year range in model includes a complete range for all systems with new or updated functionality.

The OBD functions e.g. Adjustments and programmings that are listed are new or updated for the marked system.

Systems with markers are new or updated with read/erase fault codes, real time data and/or activations.
